Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, lines 10-11, it's unclear as to what is the intended to be the claim limitation for claiming "in more detail than the service type indicator values". The same remark applies to claims 7, 11, and 15.

Claim 7 recites the limitation "said value" in line 3. There is insufficient antecedent basis for this limitation in the claim. The same remark applies to claim 13.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102(e) that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

3. The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily

Art Unit: 2665

published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-6, 8-12, 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Cobo et al. (US 6,496,690), hereinafter referred as Cobo.

Regarding claims 1, 11, and 15, Cobo discloses a prepaid subscriber service for packet-switched and circuit-switched radio telecommunications networks.

For packet switched services, the activate PDP context request 81-fig. 4 transmitted from a mobile terminal 15 to a SGSN 12 is used for activation of a new connection, the activate PDP context request includes a prepaid field or PPSC (prepaid subscriber class) 40-Fig. 5 (corresponding to a service type indicator field). The PDP 81-fig. 4 includes a service type PPSC 40 (prepaid subscriber class, see col. 7, lines 11-43), and this information is forwarded to the SGSN 12 within the Activate PDP Context Request, see col. 6, lines 17-30. Consequently, at 83-fig. 4 the SGSN sends a Create PDP Context Request message to the GGSN 25 and includes the PPSC 40, see col. 7, lines 43-62.

Regarding claims 2, and 12, the subscriber type field uses the PPSC with value "01" of table 1- col. 5 indicating packet switched services, see col. 6, lines 10-16.

Regarding claim 3, the request 81-fig.4 is the activation request message, and the PDP type prepaid 40-fig. 5 is a service type indicator field.

Regarding claim 4, the request 81-fig.4 turns to a Create PDP Context Request 83-fig. 4, and the PDP type prepaid 40-fig. 5 is a service type indicator field.

Regarding claim 5, the request 81-fig.4 serves as a PDU Notification Request message, and the PDP type prepaid 40-fig. 5 is a service type indicator field.

Regarding claim 6, the request 81-fig.4 is the activation request message, which serves as a Request PDP Context Activation order, and the PDP type prepaid 40-fig. 5 is a service type indicator field.

Regarding claims 8, and 14, please see the rejection of claim 2, the value "01" of table 1-col. 5 indicates a specific use of using the packet switched network.

Regarding claims 9-10, the charging records-fig.5 generated by the SGSN and GGSN.

Allowable Subject Matter

5. Claims 7, and 13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112 set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments filed 3-15-04 have been fully considered but they are not persuasive. Cobo teaches the Activation PDP context request includes a prepaid field or PPSC 40-Fig. 4-5 (prepaid subscriber class which corresponds to a service type indicator field).

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2665

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
